

# INSTRUMENT & SPECIFICATIONS LIST

The image shows a smartphone screen with a trading application. The screen displays three tables of stock data. The first table is titled 'BER, Volume Gainers' and lists five stocks: PLUN, KSC, PBB, WDP, and NOA3. The second table is titled 'US Exchanges, Percent Change Gainers' and lists six stocks: AUVI, SYT, NUBI, ELEV, FLXS, and DMN. The third table is titled 'US Exchanges, Percent Change Losers' and lists five stocks: LAES, MINM, SWVL, ARBK, and MPU. Each table has columns for Symbol, Last price, Chg% (change percentage), and Vol (volume). The phone's navigation bar at the bottom shows a question mark icon.

BER, Volume Gainers			
Symbol	Last	Chg%	Vol
PLUN	3.030	-3.66%	6.12K
KSC	1.495	4.91%	6K
PBB	5.765	-2.37%	3.1K
WDP	82.70	1.88%	1.586K
NOA3	3.215	1.61%	1K

US Exchanges, Percent Change Gainers			
Symbol	Last	Chg%	Vol
AUVI	3.81	67.11%	70.362M
SYT	5.58	33.82%	5.427M
NUBI	9.62	33.40%	150.823K
ELEV	2.74	29.25%	15.529M
FLXS	23.28	29.19%	113.202K
DMN	2.58	28.00%	788.744K

US Exchanges, Percent Change Losers			
Symbol	Last	Chg%	Vol
LAES	2.26	-28.71%	15.123M
MINM	2.97	-27.03%	235.904K
SWVL	4.89	-21.76%	1.138M
ARBK	2.04	-19.69%	2.113M
MPU	2.28	-19.43%	7.987M

## Product Specifications Explained

### Commissions

The majority of instruments are traded commission-free. However, instruments marked with a symbol ending in “c” are an exception, carrying a fixed commission of \$7 per lot. Despite the commission, these “c” labeled instruments offer the advantage of lower spreads, which can be beneficial in reducing overall trading costs.

### Tick Value

The “Tick” is the minimum amount that the price or value of an instrument may fluctuate pursuant to the market rules of the relevant regulated market. As profit and loss is converted into the account currency, a “Tick Value” is associated with each product and automatically converted to the clients’ accounts currency. For example, if the trading account is denominated in USD, then profit and loss will be calculated in USD. If a client traded in the UK100.c, which is priced in GBP, the brokers will automatically convert profit and loss into USD. The Tick Value details conversion rate in this example, would be the GBP/USD exchange rate.

### Minimum and Maximum Ticket Size

The minimum and maximum order size is the smallest and/or highest increment accepted and applicable to all order types. The indicative minimum and maximum trading sizes for each instrument are included in this product specification list below

### Trading Steps

“Trading Steps” relates to the minimum order size increment accepted and applicable to all order types. For example, if a client trades in AUS200.c and orders a ticket size of 0.1, 0.2, and 0.3 lots will be executed by the brokers, but an order with a ticket size of 0.11 lots will not be executed inasmuch as the minimum allowed ticket size for AUS\_200 is 0.1. Therefore, clients are only able to trade in the minimum ticket size or multiples thereof. The minimum and maximum trading steps for each instrument are included in the product specification, which you can see in a few pages.

### Minimum Margin Requirements

Margin requirements differ by the type of instrument and may be subject to change according to the underlying liquidity and volatility of the instrument. The Margin Requirement Rates are displayed in the product specification list below.

## Trading Hours

Trading hours for CFDs products are based on when their underlying reference markets are open, or the times liquidity providing partners are streaming prices. During session hours, clients are able to set pending orders, open and close trades, and to adjust price levels. CFDs will not be open for trading during holidays in which the reference markets are closed. When the market is closed, clients will not be able to take any action on positions or pending orders.

## Session Break

Clients should also be informed that CFD products have an intraday break in addition to a daily closing time. Clients will not be able to adjust or close existing positions, or open new positions during the session break. All trading functionalities will cease upon the end of week closing.

## Finance Charges – Overnight Rollover

The broker's daily interest debit or credit amounts (hereafter "rollover") are based on the total face value of the open positions and it will not be debited/ credited on a position that is opened and closed on the same trading day. All open positions are rolled automatically to the next trading day depending on whether an order is long (buy) or short (sell). It could either be debited or credited with rollover interest on a daily basis. Please note that all open positions in FX and Metals products at the close of business on Wednesday incur a 3-day rollover debit/ credit, whereas clients' positions in CFDs based on Indices, Energies, Treasuries and Equities that are open at the close of business on Friday will incur 3-day rollover. Bank holidays will affect the number of days that a position is rolled forward. Details of the broker's rollover rates (swaps) are available in the Trading platform.

Moreover, certain instruments will be charged Storage Fees on daily basis as shown on the table below.

## Finance Charges Calculation for Forex & Equities

To calculate the charges, please use this formula:

**(lots \* Swap for Long or short in points)**

### EXAMPLE 1:

**Long (Buy) 0.01 Lot EURUSD**, Swap rate for Long is **-7.922 points**.

The end of day market rate is **1.19097** for EURUSD.

The client's account currency is EUR.

Therefore, the Swap Rate Calculation is as follows:

**$0.01 * (-7.922) / 1.19097$  (conversion to account currency) = - €0.07.**

### EXAMPLE 2:

**Short (Sell) 0.2 Lots EURUSD.**

The Swap rate for Short is **5.3 points**, and the client's account currency USD.

Therefore, the Swap Rate Calculation:  **$0.2 * 5.3 = \$1.06$ .**

## Finance Charges Calculation for CFDs

To calculate the charges for CFDs, simply use this formula:

**(lots \* Swap for Long or short in points \* point size)**

### HERE'S AN EXAMPLE:

A client opens a **Short (Sell) position with 10 Lots on the DE40.c Index.**

The Swap rate for the Short position is **-9.638 points.**

The client's account currency is in EUR, and the Swap Rate Calculation is as follows:

**10 \* (-9.638) \* 0.01 = - €0.96**

## Finance Charges – Commissions on Raw Spread Accounts & Commissions on Equities

These brokers apply flat commission charges over their Raw Spread account type and percentage commissions for Equities. These charges will be shown separately from the trade size and it will be applied on both the opening and closing side of the trade.

A minimum flat commission is applicable when clients trade with raw spread symbols such as "ForexC" in a raw spread account.

The commission applicable on Equities is 0.2% based on the notional value of the number of shares traded.

## Finance Charges Calculation for Equities

To calculate the charges on the Equities, simply use this formula:

**(lots \* share price \* commission percentage)**

For example, let's say a client opens a **Long (Buy) position with 100 share CFDs of Apple (AAPL.OQ).**

The market price at the time is **162 USD**, and the **commission is 0.1%.**

Therefore, the commission calculation is **100 shares \* 162 \$ \* 0.2% = \$32.40**

## Contract Expiration & Rollover Fee

Clients that hold open positions in Futures contracts on the 'broker's Expiration' date, will be debited or credited by the price difference from the closed contract to the newly opened contract along with a 20% contract rollover fee. Expirations dates will be posted on our website under the follow link for each month, informing clients which future contracts will expire within the upcoming month.

## FOREX CHART INFORMATION

### Server Time

The Broker's trading platform Server Time, which is GMT +2 in the winter, and GMT +3 in the summer.

### Trading Session

Trading sessions for all the currencies (apart from USDRUB which is Monday 09:00 – Friday 22:30 and SEK and NOK pairs which are Monday – Friday 01:00 – 24:00) are Monday 00:05 – Friday 23:59.

### Session Break

Session break times for all currencies (apart from USDCNH, which is daily at 23:30 to 02:00 & USDRUB, which is daily at 22:30 to 09:00 and SEK and NOK pairs which their trading break is between 00:00 – 01:00) are daily at 00:00 to 00:05.

### Minimum Ticket Size

The minimum ticket size is in lots, and it's 0.01.

### Maximum Ticket Size

The maximum ticket size is in lots, and it's 100.

### Trading Steps

The trading steps are in lots, and are 0.01.

### Standard Leverage

The standard leverage provided to all traders is 1:30. Leverage of professional clients can differ.

### Stop-Out

The stop-out (or liquidation margin level) is 100%.
